

## Community Conversations Agenda

*Have A Community Discussion About Health Outcomes from Positive Experiences:*  
Discuss the Montana HOPE Report Findings and Positive Childhood Experiences (PCEs) in relationship to prevention of Substance Use Disorders (SUDs) in your community & answer the following questions:

- 1) Describe your response, in short, to the findings in the Montana HOPE Report.
- 2) Is this new information to you and your community? Did you already know about the impact of PCEs on health outcomes, including the prevention of SUDs?
- 3) What strategies could you use to grow awareness in your community about the HOPE Report and PCEs?
  - a. What services exist in your community that provide children with PCEs and build resilience?
  - b. How can you connect more families and children to these services? (Discuss LIFTS as one strategy.)
  - c. What would you be most excited about if you could accomplish it?
- 4) Are you aware of existing work in your community related to Adverse Childhood Experiences (ACEs)? How would you ensure that this work would be coordinated and aligned with efforts to increase community awareness of PCEs?
- 5) Would you like to engage additional community members in efforts to build resiliency by promoting PCEs? Which community members or groups?
- 6) Do you currently have events or work planned that is related to ACEs, the Montana HOPE Report and/or PCEs that you would like to share?
