

Trusted Partner,

Healthy Mothers, Healthy Babies – the Montana Coalition is excited to host our 8th Annual Perinatal Mental Health Conference on June 17-18 in Helena, Montana. In 2024, over 200 healthcare professionals from 26 communities across Montana attended, benefiting from education and connection. As we continue in-person convening, we aim to engage an even broader audience and strengthen collaboration amongst care providers.

Your investment in improving the early years for Montana families creates a lasting impact. **The need is urgent:** families require greater access to screening, care, and support services. Consider these statistics:

- In Montana, 1 in 5 mothers and 1 in 10 fathers face a mental health challenge within the first year after childbirth.
- Postpartum depression is one of the most significant adverse childhood experiences (ACEs), profoundly affecting early childhood development and lifelong health.
- Suicide and overdose are the leading causes of death for women in the year following childbirth.

Will you join us in expanding access to these critical resources by sponsoring Montana's foremost Perinatal Mental Health Conference?

If you've partnered with us before, you may notice the timing of our event has shifted. Fall 2025 is filled with valuable training opportunities across Montana, so to better align with our partners and create more opportunities for perinatal mental health professionals, we've moved the conference to the spring.

Your sponsorship ensures that families facing mental health challenges can access the care they need during one of life's most critical transitions: becoming parents. It supports a strong network of care for Montana families, helping them thrive for generations to come. When families receive support, infants thrive. Partner with us to ensure that Montana remains the last best place to raise a family.

Please don't hesitate to contact me by phone (406.660.2333) or email (lauren@hmhb-mt.org) if you have any questions.

With warm regards and in partnership,
